2015 - 2019

Electrical & Electronic Engineering
78.35

Sri Gayatri Jr College Kadapa
2013 - 2015

Maths Physics and Chemistry
57.1

Dr. Y.S.R English Memorial High School
2013 Completion

SSC Board
7.23

PROJECTS

A Comparative Analysis of PI and FUZZY Controllers for a 3-phase Induction Motor using Scalar Control Technique

To analyze the results of both PI and Fuzzy logic controllers when applied on closed loop, 3-phase induction motor and conclude that Fuzzy logic controller is more accurate than PI controller

SKILLS

Electrical Machine Designing and Calculations

Electrical Power System & Control System Analysis

Electrical Power Management

Embedded Systems & IoT Applications

Electrical E - CAD Designing

Data Science & Machine Learning using Python

Front End Web designing

Digital & Content Marketing

PCB design & modeling

Python Programming

R Programming

SQL Database Management System

Web development using Django & React.JS

C, C++ Programming

Source code management using Git & GitHub

Basics to Linux shell scripting

Android Application Development

Photoshop

Video Editing

Computer Hardware & Software

ACHIEVEMENTS & AWARDS

Coordinated an workshop on "Electrical CAD Designing" under TECHNEX'19 IIT Varanasi with INNOVIANS Technology INDIA

Worked as Class Representative in my graduation

Worked as final year project incharge as well as team lead

Worked as trainer for python programming for 5 - 6 workshops

Part-time instructor of Python programming basics

Intelligent system for Train Engine with Automatic Gate Controlling System using Wireless Technology

Automatic railway gate control using detection sensor and intelligent system to train engine to find its appropriate location of train using wireless technology and remote control technique as well

Personal Profile website

I designed my own personal Profile website using my knowledge in web designing

Python based projects

Bank application project
Student management system using python
Geographical Data visualization of population
Industrial Data Analysis and visualisation for feature reference.
Cash Management System.
Turtle based projects
Speak to text project
Calculator using python
Data Science based projects
Machine learning based projects

Django & React.JS based Projects

E - commerce based web site development
Profile webpage
Grocery store website
Twitter like social media website
Django based CURD projects
Digital marketing
CRM / ERP Application Development
School Management System using Django

Web designing Projects

Creating responsive websites
E - Commerce websites
Marketing web design
Designing layered websites
Coustomer Requirement webpage
webpage Hosting and domain apply
Beautiful web design which Coustomer needs

❤ INTERESTS

Programming

Electrical and Electronic simulation

Participating in social activities

Collecting different indian Coins

Photo editing

Google
